TESTIMONIAL.

Piedmont, Ala., May 18, 1887.

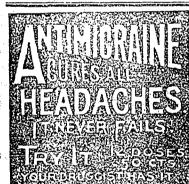

My brother, B. F. Savage, of Leadiga, Ala., has been affilieted with scrofula, of the worst form, all his lite, but able to work till about five years ago; the disease then broke out in great-raten sores, all over his body, inside his mouth and on his tongue, so that he couldn't go out of his room, nor talk. He was treated by all the doctors of this section of country for two years, and also by Dr. W. F. Westmoreland, of Atlanta, which only held the disease in check, without any prospects of cure, and so pronounced by the doctors. In this condition he lay in his room for three more years. So offensive was the stench you could not sit in the room, especially in warm weather, and it was decided by doctors and all that saw him that it was only a matter of time when the disease would cat him up.

In August, 1881, I heard that Dr. Baker's Blood and Liver Cure had cured one, of my neighbors, Mr. J. D. Braswell, of a bad cuse. I at once procured some of the medicine and gave it to my brother. About the first of November, 1886, all sores disappeared; and, although I used every means to make it break out again, I failed. My brother, by degrees, got able to work some, and he continued to improve in health and strength, until to-day he is stouter and in better health than ever before in his life. No sign of the disease has reappeared for over six permanently cured. And I would recommend all persons afflicted with scroulla or like diseases to give Dr. Buker's Blood and Liver Cure a trial, feeling sure it will cure any case. It is no humbing. It is a purely vegetable preparation.

I have said this much, and could say more, for this medicine, and without any solicitation, but alone for suffering humanity that may be similarly afflicted. My brother is as sound as a dollar to-day and a living testmony of the worth of Dr. Baker's Blood and Liver Cure.

TENNESSEE LEGISLATURE MEETS. An Extra Session to Make Some Disposal of the Convict Labor Question.

NASHVILLE, Sept. 1.—The Tennessee legislature assembled in extra session with nearly a full attendance. Governor Buchanan's message was sent in early, and read to both houses. It is devoted, almost exclusively, to the penitentiary question, and reviews at length the recent conflict between free and convict labor at Briceville.

He furnishes a great mass of information on the prison system of other states, and he very urgently places before the assembly the fact that the present outspoken demand from the people should be met by some action that will afford relief from the competition of convict with free labor. He favors an amendment to the criminal laws so that counties shall hereafter retain prisoners convicted of petit larceny and minor offenses. This would reduce the number of convicts over 50 per cent., as there are 803 minor felony convicts now in prison. He says the trouble at Briceville emphasizes the need of the state for a new prison.

He discusses the four different systems of prison management, and shows what should be done towards adopting either. Governor Buchanan seems to favor the state account system in case the criminal laws are amended and a farm should be purchased. If, however, the criminal laws are not to be amended, the state should purchase or lease the coal and iron lands not now being developed, locate the prison thereon, and employ the conviction mining coal. and employ the convicts in mining coal and iron and manufacturing iron. If the lease system must stand, he recommends that an effort be made to arrange a modification of the lease contract so as to restrict convicts to one or two mines, one each of coal and iron to be worked exclusively by convicts, and that suc's mines be in new fields not yet entered by free labor. The feature of the lease system affecting free labor most injuriously is the privilege of the lessee to employ convicts in all mines without restriction, convict labor being made a scource to drive free labor to made a scourge to drive free labor to terms. This was the cause of the Brice-

ville trouble. A lengthy report of the Briceville A lengthy report of the Bricevine trouble is given. The power of the prison inspectors should be defined and increased, so that they may say how and where convicts shall be worked. He calls attention to the fact that he has been criticised for calling out the militia, while the authority of his predecessory was never onestioned although decessors was never questioned, although exercised upon much less important occasions. He reminds the legislature that if the lease system is wiped out arrangements must be made for the additional burden to the state. The maintenance of 1,500 convicts will cost \$200,000 per annum; transportation, \$50,000; and the amount paid by lessees, \$100,000; a total of \$700,000 for two years, and added to this \$300,000 for a new prison, making a total of \$1,000,000 that must be raised in two years. If these increased expenditures are made they must be provided for by increased taxation, which should be put upon all

property alike.

The legislature, after hearing the governor's message read, immediately went to work. Bills were introduced in the senate to remove the penitentiary from Nashville and erect new build ings: to provide that convicts sentenced to less than five years shall be cared for by the counties; that parties, when convicted of a felony for the second time, shall be sentenced to life imprisonment. A resolution was introduced providing for a committee to confer with the lessees of the penitentiary and see under what terms the convicts can be secured for the purpose of erecting a

In the house a bill was introduced appropriating \$50,000 for the World's fair; prohibiting corporations and firms from issuing scrip to employes. A res olution was offered citing that the lease system is considered injurious to the state: that having 1,200 convicts in the mines deprives that number of free men of work; that the wealth created by the development of the state's resources goes into the hands of a few New York millionaires, and resolving that a committee be appointed to wait on the les sees and ask them to surrender their ease, and that if they refuse that they be asked to take the convicts from the mines and work them inside the walls of the main prison.

A short truce has been patched up be-tween the advocates of the holy coat of Treves and those who uphold the holy coat of Argenteuill in France. It is said to be agreed that the holy coat of Argenteuille is the small coat worn by Christ as a child, while, according to the Treves documents, the coat in the latter city is that worn by the Saviour at the crucifixion. Hence the Congregation of Rites has decided that the two coats belonged to different periods, and that both are genuine.

iensational Death of a Man in Georgia

Not Killed by a Hog. FORSYTH, Aug. 29.—News has just been received here of the sensational death of Mr. Dave Slocumb of Boling Broke, this county. Mr. Slocumb was found in an unconscious condition, with a huge gash across the forehead and his collar bone broken. He was removed to his home where he soon died. Mr. Slocumb had some troudle with a negro in his employ and ordered him to leave This negro found Mr. Slocumb and

made no effort to rescue him. When it became known that there had been trouble between him and Mr. Slocumb, and that the negro refused to give him any assistance, he was detained. The negro gives this account of the trouble: He says Mr. Slocumb went that the field to drive a hog out, and that the hog fongot Mr. Slocumb, and that in running backwards from the hog he fell into the gully backwards and hurt himself. But suspicion points so strongly to the negro that an inquest was ordered, and is now being held.

Tracks of the negro were plentiful around where Mr. Slocumb was lying, but no signs of hogs.

These facts, and the trouble between Mr. Slocum and the negro, and the fact that the wounds were made on Mr. Slo-cumb's forehead, and the bruises on his

Prison Keepers at Briceville. NASHVILLE, Aug. 29 .- Superintendent of Prisons Eth B. Wade, who has just returned from a tour of inspection of the branch prisons, said that at Briceville the free miners had been acting ugly since the convicts were taken there, and it was almost a daily occurrence for intoxicated free miners to go to the stockades and curse, insult or offer other indignities to the guards, thus intimidating them. This, Mr. Wade stated, was the reason so many convicts at Briceville had escaped. Otherwise, Mr. Wade said everything was quiet. Another gentleman says that Dr. J. W. Allisup, the prison physician Sam Jack, warden, and one of the guards were bathing in Coal creek when a miner threatened to shoot them. Later the same miner met Dr. Allisup in the road and presented his gun, but was prevented from further violence by the doctor drawing a pistol. On another occasion a guard named Haggert had three convicts outside the stockade, when a miner approached him and threatened to cut his throat, and then took hold of his gun, but it was jerked loose. Georgians Unite in Condemning th House of Representatives. ATLANTA, Aug. 28.-There is still a feeling of bitterness in this city and throughout the state over what is termed to be the "disowning of old Contederate veterans." The "94" of the Georgia house of representatives when they got in their unloyal work in defeating the Confederate veterans' home bill, had their day, and forever under the shower of rigid condemnation it will never go unforgotten in their memories. The denunciation of an outraged state, the indignation of a patriotic people, the appeals for old heroes, will continue to haunt their tread wherever they may go.

"The old helpless, homeless, wandering veterap." said a prominent Atlanta ex-Conf derate, "will no longer be left to the mercy of such uncivilized action as characterized part of the legislature of our great state. The veterans and their friends are aroused and it is evident that, although the '94' have had heir day in a record that may never be plotted out of the public mind, the patriots of Georgia have now come to the front to proceed to bury whatever may be front to proceed to bury whatever may be left of these would-be hero slaughterers in utter condemnation, and to applaud the deeds of the noble and the brave of our southern land and to support the unfortunate defenders of a lost, but not a traitor's cause."

The called meeting of the Confederate veterans at their hall in this city was attended to overflowing, and before the arrival of the president the legislature was censured in not very complimentary terms by the large number present. President Calhoun came in and called the meeting to order. He stated the purpose of the meeting as announced in the call, and said that if the veterans decided to go to the artesian well they would see to it that the best of order was preserved. At the conclusion of his speech, Mr. John F. Edwards moved that a committee of three be appointed to draw up resolutions embodying the sentiments of the Confederate Veteran's association. The motion was carried, and President Calhoun appointed Mayor W. A. Hemphill, J. A. Anderson and Colonel J. O. Waddell as the committee.

roud Wreck in North Carolina. CHARLOTTE, N. C., Aug. 20.—Fesrful s were the details of the wreck of the Western North Carolina passenger train at the Third creek bridge, as sent out, there was no exaggeration about them. The full horrors of the accident can be realized from no written account. It was the most disastrons railroad accident that has ever occurred in this state. Standing upon the bridge and looking down upon the mass of broken cars

ninety feet below, one's first impression is to marvel at the fact that out of fifty

people who went down in the fearful crash, more than half of them escaped with their lives. All the stores in the town were closed usiness was abandoned and the whole people of the town set about caring as good as they could for the dead and the injured. At nightfall they found that in their care were twenty-one dead odies and twenty-eight wounded people. Nearly every one of the dead was crushed in the head. The reporter drow shone," cried another.

Dr. Pegg moved that the names of the noble and immortal sixty-four be "embossed on a marble tablet," and preserved by the association. This later than the names of the reserved by the association. This later than the same and the head. The reporter drown aside the blanket from one corpse and started back at the sight. It was the body of Mr. Brodie, the Chicago drummer. Death had come to him quickly, and his features retained an expression of the same and the and his features retained an expression of horrified fright. His eyes were wide open and staring, and his mouth was open. Another corpse showed no ontvard signs of injury at all, while upon still another no marks could be seen ex-cept bad bruises on the eyes. Each corpse was dressed and placed in a nest casket. The casket was boxed, and as soon as instructions would be received for the shipment of the body it would be sent to the depot.

It now appears pretty plain that this awful disaster was the work of tramps. A rail had been loosened. After the accident it was seen that the nuts had been unscrewed and placed on a rock near the bridge, and that the spikes had been drawn. A short while previous to the accident two tramps had been put off a train near the bridge. They were roublesome fellows and the conductor belief is that these tramps took up a rail in a spirit of revenge. They were going in the direction of Sallsbury, and the railroad authorities are making

exery effort to catch them.

SATURDAY, SEPTEMBER 5, 1891.

The Missouri State Alliance defeated U.S. Hall for re-election as president; but the same body refused to ury scheme, and remitted the subject to the sub-alliances.

The Georgia legislature failed to relegate the old war horse Gordon to gladden the hearts of the loyal Republicans of South-hating Kansas.

The third party people are spreading their net for the Democratic Alliancemen of Alabama, but they will not catch them. Here and there a foolish young bird will go into it; but the wary old birds of our party will walk 'round it.

The Atlanta Journal has an appropriate cartoon representing the action of the Georgia Legislature in refusing to accept and support the Confederate veteran's home. It is a picture representing a young Confederate soldier going through the manual of arms with the inscription beneath, "support arms." Beside this picture is another representing an old one-legged Confederate soldier with a crutch and underneath this is the inscription, "support yourself."

The Georgia State Alliance passed a resolution paying the expenses of Jerry Simpson, Mrs. Lease and the other third party evangelists from Kansas and then very appropriately passed a resoution "demanding" that the legislature refuse to accept and support the Confederate veterans home, built by the people of Georgia at an expense of fifty thousand dollars, and offered to the State as a free gift.

After the defeat of the bill to accept the Confederate soldiers home, built by the loving tribute of those noble Georgians who yet revere the Confederate soldier, a great indignature was denounced in the roundest terms by men of all classes, including eminent ministers of the gospel. The feeling spread throughout Georgia, and there is profound disgust throughout the State at the action of the 94 members of the legislature whose vote defeated the bill.

The News seconds the motion. The Inquirer argues that now in the fall season and the winter months that are to follow, travel between Rome and Piedmont and Anniston will increase. The business of barter and trade will start the people going and the theatrical season in Anniston will bring hundreds from Piedmont and Jacksonville to Anniston each month. As matters of passenger transportation now stand, people from up the East Tennesse are compelled to come down at noon and wait until the morning of the following day to return home. ### Democracy and The Alliance.

Some of the democratic papers of the South are advocating the idea of severance between the Democratic party and the Alliance. A certain Nashville paper says: "The latter i (the Alliance) has become so thoroughly a distinct and hostile political party that no member of it should be allowed to vote in Democratic to B. H. RICHARDSON. primaries or to participate in democratic conventions." On the other hand some of the county Alliances are pledging themselves to vote for no man for office who does not endorse the demands of the Ocala platform; and at the recent meeting of Alabama State Alliance at Brundidge in this state President Adams stated that he would suffer his right arm burned off before he would vote for Cen. John T. Morgan, or for any man who would vote for him; a statement, by the way which no one be-

lieves. Now, there is intemperance and possibly danger in those rantings. They do no good, certainly. There is neither argument nor reason in them. They convince no one and superior work by the addition of the are calculated to bring about an estrangment that we cannot afford. The Alliance is a strong organization, but not strong enough to stand by itself. The Democratic party is a much stronger organization but not qualed in the South. strong enough in the south to cut loose from the Alliance. Neither is such a course at all necessary. The farmers of the country, the agricultural class, think and with reason too, that the drift of public legislation for the past twenty to thirty years has been detrimental to their interests. But who is to blame for this state of affairs, if such a state exists? Certainly not the democratic party for it has never, within marittf

Read What Capt. James H. Savage Has to Say of Baker's Blood

and Liver Cure. Piedmont, Ala., May 18, 1987.

My brother, B. F. Savage, of Leadiga, Ala., has been afflicted with scrofula, of the worst form, all his life, but able to work till about five years ago; the disease then broke out in great ritten sores, all over his body, inside his mouth and on his tongue, so that he couldn't go out of his room, nor talk. He was treated by all the doctors of this section of country for two years, and also by Dr. W. F. Westmoreland, of Atlanta, which only held the disease in check, without any prospects of cure, and so pronounced by the doctors. In this condition he lay in his room for three more years. So offensive was the stench you could not sit in the room, especially in warm weather, and it was decided by doctors and all that saw him that it was only a matter of time when the disease would cat him up.

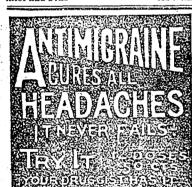

In August, 1886, I heard that Dr. Baker's Biood and Liver Cure had cured one of my neighbors, Mr. J. D. Braswell, of a bad cuse. I at once procured some of the medicine and gave it to my brother. About the first of November, 1886, all sores disappeared; and, although I used every means to make it break out again, I failed. My brother, by degrees, got able to work some, and he continued to improve in health and strength, until to-day he is stouter and in better health than ever before in his life. No sign of the disease hus reappeared for oversix months. I am perfectly satisfied that he is permanently cured. And I would recommend all persons afflicted with scrofula or like diseases to give Dr. Baker's Bood and Liver Cure a trial, feeling sure it will cure any case. It is no humbug. It is a purely vegetable preparation.

I have said this much, and could say more, for this medicine, and without any solicitation, but alone for suffering humanity that may be signified with TESTIMONIAL. Piedmont, Ala., May 18, 1887.

THE ALLIANCE IN KANSAS ..

The Following Dispatch Alleges That It Is Going to Pieces.

TOPEKA, Sept. 8.—Every indication points to the fact that the Farmers' Alliance in Kansas is gradually going to pieces, and with it a significant decrease in the ranks of the People's party. While the leaders of the movement maintain that they are retaining their strength, information from reliable Republicans and Democrats from all sections of the state is to the contrary notwithstanding.

Last year the Democrats of Kansas hailed the Alliance movement as a co-workor to destroy their ancient enemy, the Republican party. They did not nominate county tickets in over a half dozen counties in the state, but threw their votes to the near Re. their votes to the new People's party. Now it is exactly the reverse and the Democracy have tickets in nearly every county, and are seing with the Republicans in fighting the People's party and the Alliance as a common enemy.

In eight out of nine judicial districts

the Republicans and Democrats have combined to defeat the socialistic candidate nominated by the People's party. They claim that the good name and credit of the state are too dear to them to allow men elected to the bench, who to allow men elected to the bench who would overturn the present condition of

things.

Last year 50,000 Democrats left their People's ticket. They did it because they made it possible for the Aliance to corral a United States senator and ive members of congress. As soon as the Alliance party and accomplished this they commenced abusing both old parties, and declared that they wanted

nothing to do with them.

Recently there has been a marshaling Recently there has been a marshaling of forces all along the line in Kansas, and thousands of Republicans and Democrats have withdrawn from the order and from the People's party, and declared their intention to hereafter affiliate with their old parties. It comes from all parts of the state. Republicans predominate in this exodus, but ans predominate in this exodus, but thousands of Democrats also declare no further allegiance to the Alliance party. Democrats and Republicans see there is no break in the solid Democratic south, and they will not forsake their respective parties here in Kansas and become chestnut pullers for Polk, Liv-ingston, Macune, McDowell and others.

THE CONVICT QUESTION.

New Idea Suggested That May Be Put into Execution.

NASHVILLE, Sept. 8.—The chairman of the penitentiary committee of the Tennesseee legislature has received a proposition from the Tennessee Coal, Iron and Railroad company, and it will probably be submitted when the two houses meet. As far-as can be learned. the proposition is about as follows: The contract providing for the payment by to be canceled. The lessees are to build a new prison at the head of Sequatchie valley, to cost several hundred thousand dollars, under direction of an architect

o work in the mines.

A stockade shall be built for convicts in Marion, Bledsoe and Sequatorie counties, and able-bodied convicts are to be worked in the Tennessee Coal. Iron and Railroad company mines in these counties, but no where else. The essees are to pay the state \$250,000 for the labor of convicts during lease, running from twenty-five to thirty years.
The state is to pay for clothing, feeding transporting and guarding convicts.
The lessees are to be given the site on which the present main city stands in this city. They will give 500 acres of land where the new prison is to be built, on which partially disabled con-victs can raise products for their own consumption. The building of the new prison is to begin without much delay convicts being employed in erecting it. Legislators are of the opinion that it will pass the general assembly with some modifications.

ITALIAN ITCH.

A Contagious Skin Disease Brought to America by Italian Immigrants. Morristown, Penn., Sept. 8.-People here are alarmed at the rapid spread of contagious skin disease, called the 'Italian itch," or scabies, occasioned by the presence of a minute parasite, transmissible from one person to another. The disorder here is affecting all classes alike, and the best families and most refined people are among the sufferers. It is traced to the imported Italian laborers who have recently been employed in this neighborhood, and has Notary Pubic and Ex-Cinco spread both up and down the line of the Philadelphia and Reading railroad and along the line of the New Trenton cut-off, from Morrisville to Glenloche. Wherever these Italians have been, they have left this trail of annoyance and

suffering. Notes and coin are said to be the most frequent medium for its transmission, first from the Italians to the shop keepers and then to the people generally.

The soft parts of the skin between the fingers and about the wrists and elbows are most frequently affected. The acarus usually attacks both sides of the body simultaneously, and in adults it is never found on the face or scalp, but any other portion of the body may be affected.

GREAT STRIKE IMMINENT. The Colored Alliance Refuses to Pick

Cotton at Low Prices. Houston, Sept. 7 .- The biggest agri-

cultural strike in the history of the world is imminent. If it takes place the matured cotton will rot in the fields. This is brought about by the colored Farmers' Alliance of the United States. And the order goes into effect on Saturday next. This organization has been perfected

through colored Ailiances, and numbers more than half a million with thousands being added every day throughout the southern states. Colonel R. M. Humphry, general superintendent of istence of this organization, saying it had been induced by the organization some time ago of planters and merchants in certain sections, notably Memphis and Charleston, to reduce the price for picking to a very low standard, and that the cotton pickers had combined to protect themselves from this dictation,

It is learned that a secret circular has been mailed at Houston to every sub-Alliance throughout the cotton belt, Aliance throughout the cotton belt, fixing the date when the strike of cotton pickers will be simultaneously inaugurated, and how it shall be conducted. The headquarters of the Colored National Alliance of the United States is in this city. Colanel R. M. Huwahren, general superintendent of Humphrey, general superintendent of the Colored Farmers' Alliance and Cotton Pickers' League, has been actively at work in organizing the colored men for a general strike all over the south. A copy of a secret circular has been obtained, which Humphrey is having distributed by thousands all through the

cotton states.

The following is the main feature of

the strike: Whereas, The planters and specula-tors above mentioned are firm in their demand that you pick at starvation wages, as offered by them, and leave your families to suffer fearful consenences, placing to your account the resent low pricee of their cotton; and,

Whereas, Above 600,000 pickers already have bound themselves together n sacred covenant to pick no cotton for Nov. 1, at less than \$1 per 100 pounds,

AFFAIRS IN CHILI.

The Country Has About Settled Down Ante-Bellum Quiet.

New York, Sept. 5.—A cablegram to The Herald from Santiago says affairs in Chili have almost settled down to ante bellum quiet and order. Nothing is decided yet regarding the elections, and the establishment of a constitutional government. It will take several weeks at least before the necessary arrangements for this can be completed and in the meantime Junta will administer the affairs of the country.
The governments of Brazil and Peru

have officially congratulated them on the victory of the Congressional party and the restoration of peace. A decree has been issued by Junta announcing that notes issued during revolution by Balmaceda be recognized as legal by the government. The in-vestigation of banks shows many of

A SHOCKING AFFAIR.

An Infant Attacked with Fits Is Boiled

Alive. Peterboro, Ont., Sept. 5. A shocking affair has just come to light here. About two weeks ago a 2 year-old child the old-fashioned remedy of putting the child into a pan of warm water was tried. The water was not sufficiently warm so the lid was removed from the stove and the pan with the child in it was placed on the opening for the purpose of heating the water. The child writhed in agony, but the women in attendance, deeming it the result of the fit, paid no attention. Finally the pan was removed, and when the child was taken out of it the skin and flesh peeled off its body in large pieces. The child died soon after. The authorities are

A SEASON OF PROSPERITY. The Manufacturers' Record Predicts

Good Times for Fall and Winter. BALTIMORE, Sept. 4.—The Manufacarers' Record of this week publishes ix pages of special letters from leading bankers in all parts of the south as to the financial condition and prospects of general business and farming interests. These reports uniformly show that immediately after the Baring failure, southern merchants and bankers pur such a very conservative policy and at once commenced to curtail all their operations and to make preparations for a long period of monetary stringency, if should come. The effect of this, while lessening the volume of trade, has been a reduction of indebtedness and the placing of all business and banking interests on a very solid financial basis. It also resulted in the borrowing of less advance money by cotton planters than for many years, and hence the present crop has less indebtedness against it than crops of former years. In all parts of the south farmers are reported as less in debt than for years, many re-ports saying that their indebtedness is smaller than at any time since the war. due, in part, to enforced economy on account of the monetary stringency account of the monetary stringency since last fall and in part to the large crops of the last few years. are Sent Into Exile by the President of

NEW YORK, Sept. 8.-A dispatch remerly president of the republic; J. D. Rodiquz, and Schamorro. The others were A. H. Rivas, E. Guzman and Pedro Ortiz. There has been much oppotration, particularly among the upper classes, and, if current reports are correct, the president has frequently been obliged to keep in retirement, threate against his life having been made openly.

The exiles sent away today have been most pronounced in their opposition t the president, and he has finally determined to send them out of the country. His action led to an open revolt in Grenada city, where the parties all live, which resulted in bloodshed. The prisoners were placed in a wagon today to be taken to the railroad station, and sent by special train to Corinto. The wagon, guarded by troops, was passing through the streets when it was surrounded by a mob shouting for the pris-oners' release. The soldiers were ordered to fire but no one was injured. The mob replied with a volley and killed seven men, including the governor of the district, the lieutenant commanding the troops, three soldiers and two by-

standers. More troops were brought to the scene and the mob soon dispersed without further loss of life. The prisoners were sent to Corinto and placed abourd a steamer which took them to Punta Arenas. Both Nicaragua and Honduras have troops stationed on the frontier, and open hostilities between the two countries are countries are expected. The question of the Central American federation has led to jealousy and ill feeling among the different republics. Troops of Salvador and Guatemala are confronting each other on the frontiers. The elec-tion in Guatemala for a successor to President Barillas will, it is believed, be the signal for the opening of a conflict in Central America.

His Remarkable Success in Wyoming. He Is Asked to Hold Up. CHEVENNE Sent 3 - Frank Mel-

bourne, the rain wizard, had just started to make some more rain here when a committee called upon him and begged him to desist doing so.

There is a division shooting tournsment of the Rocky Mountain Sportman's association going on here, and the County Teachers' institute, the Mine convention and the State Fair race meeting, all public gatherings to follow, occupying the time till Sept. 12, 3,615 would be greatly impaired by Mel-

bourne's showers. The wizard has agreed to comply with the wishes of the people, but says that nevertheless he will furnish half an inch of precipitation on next Sunday. Those here who were skeptical are now convinced that there is something in Melburne's system. The committee having the matter in charge took every precaution to obtain a satisfactory test of Melbourne's rain-making powers and the Observer Ravenscroft rendered important assistance. The committee says that Melbourne has done what he agreed to. At the suggestion of leading land owners Melbourne will submit a pro-position to deliver 18 inches of rain in April. May and June next year.

DISPATCH FROM MINISTER EGAN. The Department of State Receives

Cablegram from Santiago. WASHINGTON, Sept. 8 .- At last the department of state has heard from Minister Egan. The news came in the shape of the following cablegram:

and set aside. And to settle the question of honesty we need only to take note of the large number of citizens who are engaged in buying, selling and using this system, it being as universal in its use where ever thoroughly and properly introduced as the sewing machine. This alone proves most conclusively that it is an honest calling, and that those who are engaged in the sale of it are honest and are selling honest goods.

The nature of the work, aside from any other testimony, shows it to be light and pleasant, but in order to be successful must be pursued as any other business-intelligently, industriously and preservingly. It was offered to the State as a gift, and at a bill was introduced to ap, ropriate a sum of money for its support. The offer was rejected and the bill defeated by a vote of 94 to 62. The only reason advanced in support of their course by members who voted against the bill, was that the Home would have very few inmates, that Georgia had very few destitute Confederate veterans; and they could be better supported at home by pensions "I was very much surprised to see the enthusiasm of the North Carolina people touching independent action. What then do they rear, that the South must cease to honor, or care for her heroic dead, and must throw over board her living heroes who have fought her battles during the war, and since the war. If we will do this, then we can affiliate with the Northwestern Republicans in the organization of a new third party with negro equality for the confederates during the interits chief corner stone. Mr. Simpson, one of the chief apostles of the third party, has declared that this movement will settle effectually and forever the race issue in the South. In the war for Southern rights, when we were overcome by superior numbers, we surrendered our arms and returned to desolated homes in good faith to abide the verdict of the sword, but we were not allowed to rest in peace. Our enemies forced us into another contest,-this time for Southern honor, and the sanctity of Southern homes. Sub-Treasury Primer.

Alliance Echo.

What is a sub-treasury?

A warehouse where a farmer pawns his cotton.

How much does a farmer get on his cotton pawned at a warehouse? The farmer gets \$4 out of every

Who gets the other \$1, the farmer or the government?

The government holds it to to pay for interest, insurance, loss of weight, decline in price of cotton, etc. Who devised the sub-treasury sys-

tem? It was either a syndicate of politicians or a syndicate of speculators.

'Can a speculator deposit cotton in the sub-treasury? A speculator can deposit cotton in

the sub-treasury. How many bales can he deposit in the sub-treasury?

If he has \$60,000,000 he can deposit the entire crop, valued at \$300,000,000. How can speculators do this?

Say every fourth or tenth county had a warehouse. Speculators with \$100,000 buy cotton, send it to the warehouse, draw \$50,000; buy again and send it to the warehouse and draw \$61,000; buy again, send that to the warehouse and draw \$40,000; buy again, deposit and draw money, and so on until \$100,000 would corner \$500,000 worth of cotton. Margins would not bother him, and he could hold so long as he paid interest, in-

Read What Capt, James H. Savage Has to Say of Baker's Blood

and Liver Cure.

TESTIMONIAL. My brother, B. F. Savage, of Leadiga. Ala., has been afflicted with scrofula, of the worst form, all his life, but able to work till about five years ago, the disease then broke out in great ratten sores, all over his body, inside his mouth and on his tongue, so that he couldn't go out of his room, nor talk. He was treated by all the doctors of this section of country for two years, and also by Dr. W. F. Westmoreland, of Atlanta, which only held the disease in check, without any prospects of cure, and so pronounced by the doctors. In this condition he lay in his room for three more years. So offensive was the stench you could not sit in the room, especially in warm weather, and it was decided by doctors and all that saw him that it was only a matter of time when the disease would eathim up. Pledmont, Ala., May 18, 1887.

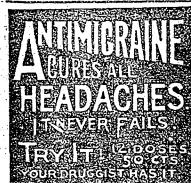

Blood and Liver Cure had cured one of my neighbors, Mr. J. D. Bruswell, of a bad case, I at once procured some of the medicine and gave it to my brother. About the first of November, 1886, all sores disappeared; and, November, Isso, all sores disappeared; and, although I used every means to make it break out again, I failed. My brother, by decrees, got able to work some, and he continued to improve in health and strength, until to-day he is stouter and in better health than ever before in his life. No sign of the disease has reappeared for oversix months. I am perfectly satisfied that he is permanently cured. And I would recommend all persons afflicted with scrofula or like diseases to give Dr. Baker's B'ood and Liver Cure a trial, feeling sure it will cure any case. It is no humbug. It is a purely vegetable preparation.

I have said this much, and could say more, for this medicine, and without any solicitation, but alone for suffering humanity that may be similarly afflicted. My brother is as sound as a dollar to-day and a living testimony of the worth of Dr. Baker's Blood and

HORSES ROASTED TO DEATH. Half Mile of Stalls at the Dallas Fair

DALLAS, Sept. 22.—At 2:30 c'clock a. m., a fire consumed a half mile of stalls. at the Dallas fair grounds, besides the two large private stables of H. R. Sanborn of Houston. The stables contained 260 stalls, and there were 200 horses entered. The stables were built to plunder them, of such combustible material that the flames swept them from the face of the earth in 30 minutes, fanned by a brisk

The scene during the fire beggared description. Dozens of men and stable boys were panic-stricken, and made feeble efforts to save the horses, harness and other track paraphernalia, but the heat was so terrific that they did little or no good. The flames roared like the billows of an angry sea; but above them could be heard the terrorizing bellowing of horses, accompanied by the sickening odor of roasting flesh. Ponderons Nor-man and Percheon stallions, from Sanborn's private stables, broke loose from their keepers and their fastenings, and rushed upon each other with the fury of euraged lions, kicking and biting eoch other, and uttering piercing shricks until they fell exhausted and were roasted by the seething mass of burning tim-

Mr. Sanborn lost twelve fine Percheon and Norman stallions, valued at \$30,000 to \$40,000. The trotting horse, Wilkes, valued at \$5,000, was led out of his stall, but became unmanagethle and plunged into the burning stall, from which he could not be rescued. HEAVY BANK ROBBERY.

Over a Million Is Stolen from the Lon-

don and Westminster Bank. LONDON, Sept. 22.-Another heavy bank robbery is reported, but as every effort is being made to suppress the facts, no authoritative story can be told. So far as known, however, it is this: A large parcel of bills, remitted from country banks, has been stolen are in attendance, representing twelve from the London and the Westminster bank, limited, which is an important is variously stated from \$750,000 to \$1,-150,000. The matter has become public through notes to the banks and police centers of the country, and through the espionage over departing vessels at all the ports of the United Kingdom.

The theory of the police is that no attempt will be made to use the money in Great Britain, but that it will be taken abroad, most likely to the continent, where a great deal or English money circulates. The actual method of the robbery is, to the public, entirely conjectural, but the circumstances recall the clever robbery last February of a ident of the Chesapeake and Ohio rail-clerk of the London branch of the Bank road, the funds for which were con-of Scotland, as he stood at a public tributed by the employees of the com-counter of the National Provincial bank. The thieves obtained \$60,000 by that mond, Va. haul, and nothing has ever bean heard of them or the money. Quite recently it was reported that the Bank of England had been robbed of £250,000, but

A BARBER GOES INSANE.

While Shaving a Man and Attempts to Make Ilim a Corpse. KENNETT SQUARE, Pa., Sept. 21.-A barber becoming insane while shaving man is what every man who ever had his chin scraped has feared. Therefore, a great sensation was created here when Wm. Reese showed signs of insanity while shaving Larkin Jackson. Jackson had been lathered and was sitting quietly in the chair when Reese made marking: "Jackson, you would make a beautiful corpse. I think I will take you to heaven with me." The barber's eyes grew wild and his hand moved uneasily, scratching Jackson's face. Reese laid the razor down for a minute and rubbed his hands. This was supposed to be preparatory to making Jackson an gel. Jackson, thinking it was time him to get out, made for the door, but he was not quick enough for Reese who met him at the door, and after a hard struggle he wrestled himself loose

and started down the street with Reese in close pursuit. Reese stumbled and fell. He was captured and will not do any shaving for some time to come.

Cotton Crop in South Carolina. COLUMBIA, Sept. 21.—The cotton crop in South Carolina will fall short fully one-fourth. Reports from all over the state, received by the weather bureau, show that the damage by the recent heavy rains was not overestimated. During the past week the rainfall has been below the normal; temperature about the average, amount of sunshine above the average. The heavy rains which completely saturated the soil, and in many places ponded, together with the hot sunshine for the past week, scalded and rusted most of the cotton crop and caused many of the immature bolls to open, and thereby greatly de-creased the yield. From reports receiv d from correspondents and from other reliable information the last report of 25 per cent. decrease is fully sustained, and at several places the decrease in the production is placed at a much higher estimate.

DAHLONEGA, Ga., Sept. 21.-Miss Kate Mashburn, the paramour of the Rev. Z. T. Bell, was arrested here, and they were both arraigned before Justice Allen on the charge of adultery and fornication. FIRE IN CHICAGO. Several Persons Arc Smothered to Death In Dense Smoke.

CHIC-GO, Sept. 19 .- A fire occurred here in a three-story brick building, at 549 and 551 Sedgewick street, in the apper stories, which were occupied by a number of families as living apartments, resulted in the death of seven persons and the fatal injury of another.

The dead are: ... John Schalk, méchanic, aged 45. Mrs. Schalk, aged 42.

Annie, John and James Schulk, aged 15, 12 and 8 years. Robbie Burns, aged 14.

An unknown woman. Cynthiana Schalk, the only surviving member of the family, aged 17, was overcome with the smoke and it is thought cannot recover.

The fire originated in the rear of the first floor, which was occupied by Wm. Keafits as a bakery, and is thought to have caught from one of the bake ovens: It spread to the shed in the rear in which was a quantity of hay and straw. From this it run up the rear stair case and into the sleeping rooms on the sec-

and third floors. The front rooms on the second floor were occupied by John Dondo, his wife and two children, all of whom escaped without injury. The rear was occupied by Mr. Keafits, owner of the bakery, and two bakers The Regenstein, no-senfeld, Schalk and Burns families occupied the rear third floor. Burns and wife and their three children were res-

OZARE, Ark., Sept. 17.—General T. M. Harris, who is endeavoring to prove that Jefferson Davis was an accomplice in the assassination of President Lincoln, is having his record torn up. J. W. Ervin, secretary of the Franklin county ex-Confederate association, a Virginian by birth, was interviewed,

and said: "I was formerly a resident of Glenville, the county seat of Gilmer county, Va., and knew General, then Dr., T. M. Harris, very well. When the war broke out, 'Old Tom,' as he was familiarly called, was a candidate for the lieutenancy of Captain Elam Mitchell's company, raised at that place for the Confederate service. In this, he was unsuccessful. He was then instrumental in the organization of the Tenth Virginia regiment of federal troops, of witch he was a commissioned colonel. Up to the time of his defeat, he was as rank a secessionist as could be found south of Mason and Dixon's line, and it was disappointed ambition that made him "Trooly Loil." These are facts and can be proven by any of the old residents of Glenvile, W. Va. This is the man who is trying to vil-ity the character of Jefferson Davis, a

man who, in the early lays, refused to serve in the Confederal army, because he could not wear an officer's strap; who then became a unionist to secure the command of a regiment, and now after a silence of twenty-six years, endeavors to rake up the bones of the il-lustrious dead. He was, I am glad to say, not a Virginian by birth, but came to Glenville from Pennsylvania.

COAT OF TAR AND FEATHERS Is Threatened Polk by Old Soldiers in

WICHITA, Sept. 17.-In his addresses in this state, Colonel L. L. Polk of the National Farmers' Alliance, is making it a point to deny the stories of his inhumanity to Union soldiers. He denies that he ever held rank above a third lieutenancy, and could not therefore have been in authority at any post. A veteran in this city-Mr. McAllisterwho was in Salisbury (N. C.) prison, when Polk was governor, holds a sick parole signed by L. L. Polk, brigadier general commanding the post, and gives the Alliance leader the blackest reputation for his conduct to Union soldiers. A score of determined old soldiers got together and perfected plans for applying tar and feathers to Polk before he should leave town, but somehow the news of their intention leaked out and the police took steps to prevent the projected assault.

TRAGEDY IN TEXAS.

Difficulty with Fatal Results Grows Out of Sub.Treasury Controversy. DALLAS, Sept. 17 -- A trangely was enacted on the public square at Sulphur Springs in this state. For some time past Everett Moore, editor of The Alliance Vindicator, and E. M. Tate, the editor of The Hopkins County Echo, have been engaged in a bitter newspa-

per controversy which had its origin in dispute over the sub-treasury scheme. Finally the men met on the square and the old trouble came up. Words led to blows, when the men grappled. They broke away, but pulled pistols and both fired. Moore fell mortally wound-ed ane expired a few hours afterwards. Tate was placed under arrest. The feeling runs high, as both men were popular and each had many friends.

hearing Democratic speaking?

Replying to the resolutions of the Woodside Alliance, the Alliance Herald quotes one of the resolutions as below and then coolly admits, as ning of a Democratic revival that will be seen, that every member of the Alliance should have known what was coming when he joined the order. It makes no denial of the charge that the intention is to take them outside the Democratic party, but tells them in effect, "you ought to have known where it would lead you." How were they to know, when they were assured solemnly that joining the order would not conflict with their politics and that it was non-partisan or non-political. Every man who has joined the Masonic fraternity was assured before he took the oath that it would not interfere with his politics or religion. What a cry of "shame" would go up, if the attempt should be made to break this solemn pledge and lead the order into politics. Here is what the Herald says:

Attempting to force the people to a blind and unthinking endorsement of wild and reckless schemes of good men. It seeks the good of the finance and revolution, to form a people. The people need not fear or third party for the disruption of the unity of the south." Every member of the Alliance should have comprehended and understood its purposes before he offered for membership When he ascertained that it was for the uplifting and upbuilding of the farmer, he should have comprehended that all that might be necessary to accomplish this end was included

the Alabama farmers look for relief ler. from the Democratic party or any their dispairing cry.

· But what Dr. Groce means is that party that will afford the farmers the good day, gentlemen', and drove relief they desire. On what ground off."-Chattanooga, Times. can the doctor make that assertion? What test has been of the virtue of those measures which the Democratic party proposes and has so long struggled to enact?

Does he mean to say that the farmer would get no relief from the reduction of the tariff? Does he seek to make Alabama farmers believe that no benefit would come to them from the repeal of the McKinley iniquity, which doubles the price of their clothing and nearly all the necessities of life? Does he consider that

then he has no shadow of ground on which to base a statement that the Democratic party promises no relief to the farmers of Alabama.

The remedies which the Democrat ic party proposes must be tried before they are proven insufficient. The Democracy has never since 1860 had entire control of the national government, and therefore has had no opportunity to put its purposes in practice. .

Its prospect of gaining that control is brighter now than ever before, and nothing can prevent it from

doing so unless it be a schism in the South that will break the Democratic solidity of this section.

If the farmers of Alabama desert the Democratic party and run off in the pursuit of some ignis fatuus, some supposed bag of gold at the bottom of a rainbow, they will not only throw the fat in the fire, destroy the throw the fat in the fire, destroy the south of the agricultural interests of the country.

Of course the people would just as largely have attended a meeting where Senator Morgan was billed to speak as it did by invitation of the Club. No matter, everybody present seemed to be pleased that they had come to listen to the utterances of the distinguished senator, and manifested their appreciation in frequent and prolonged applause. His kind and feeling reference to the wage-earning classes and farmers were exceedingly appropriate. though we think he sat down rather too heavily upon the Alliance leaders. 'The Alliance people realize that they have been and still are heavily handicapped in their struggle for superior work by the addition of the proper recognition of their rights, and the remedies they are seeking for the wrongs they are suffering, that it need hardly be wondered at that in doing so extravagant posiof carefully selected paper, are une tions, it may be, are taken by them qualed in the South. in order to obtain that recognition to
